# APS StampStore Search Tips Number Letter Prefixes

Stamps listed with letter number prefixes such as Berlin (Germany 9N) pose sorting challenges especially since while most appear behind the stamps for the "base" country, a few such as Java (Indonesia 1L) appear at the beginning of the country's listing.

To help members locate and purchase material from these areas on StampStore, we recommend that you choose the specific area from the country drop down menu. Some examples of the areas you can directly search include the following:
